

THE PANCREATIC CANCER STORY

PANCREATIC
CANCER
ACTION
NETWORK

13% relative 5-year survival rate

rising incidence rate

3RD leading cause of cancer-related death in the U.S.

OUR GOAL IS TO ACCELERATE PROGRESS FOR PATIENTS

WE'LL GET THERE BY ADDRESSING 6 KEY NEEDS

More researchers and resources

Discover ways to detect the disease earlier

Increase clinical trial enrollment

Bring new treatment options to patients faster

Increase knowledge of the disease and how best to treat it

More public awareness and visibility

OUR PROVEN APPROACH TO MAKE IT HAPPEN

SCIENTIFIC RESEARCH

We fund the most promising research and leading-edge initiatives, including the Precision PromiseSM adaptive clinical trial and our Early Detection Initiative.

Since 2003, we have awarded 234 grants to 213 scientists at 79 institutions. Working in partnership with generous donors, we have invested \$174 million to date, including our competitive Research Grants Program and innovative scientific and clinical initiatives.

PATIENT SERVICES

We provide compassionate support and free, one-to-one, personalized information about the disease, treatment options, clinical trial searches and more to patients and families.

We share resources and speak with more pancreatic cancer patients than any other organization in the world.

GOVERNMENT ADVOCACY

We drive legislative support for increased federal research funding.

We've helped increase National Cancer Institute pancreatic cancer research funding from \$17 million in 1999, the year of our founding, to over \$182 million in 2018.

COMMUNITY ENGAGEMENT

We mobilize a national network of volunteers who raise awareness and funds through large-scale community events like PanCAN PurpleStride[®], the ultimate event to end pancreatic cancer, and individual DIY fundraising.

We've inspired more than one million people to take action since our founding.
